Salsa Walnut 3-strip PL

The Salsa/Bravo collection is by far the most popular. We have made the range so wide that you can be almost sure of finding exactly your favourite wood species, design, structure and colour. The Salsa selection can offer more than ten wood species to choose from. Whether you would like a light or dark floor, calm or lively, you will find a Salsa floor that suits you.

Salsa Oak Cumin 3-strip

# HOME

- The Salsa floors have a 14mm thickness
- The top 3.6mm wear layer is of genuine wood and can be re-sanded four to five times
- The middle layer of transverse wooden fibres is made of pine or spruce
- The bottom layer stabilizes and strengthens your floor

- All floors are treated with either Proteco Lacquer or Proteco Natura
- 30-year wear guarantee in a domestic environment
- Pattern in 3-strip
- Choose between two different lengths: half-length and full-length
- Ultraloc or Combiloc locking systems

Salsa Oak Nature 3-strip PN

# Bravo

## Completes your modern lifestyle

Bravo Maple 3-strip PL

Similar to the Salsa floors, our Bravo range offers easy-to-handle floors which are also of very high quality and have great wear resistance. In short, a Bravo floor will fit into your family life easily – no unnecessary installation problems or long hours spent on cleaning. It will simply add nature's own beauty to your home and make your surroundings even more inviting.

The difference between Bravo and Salsa is the temperament! The wood chosen for the Bravo floors is very varied and has a great and lively look.

**Ultraloc**  
It won't get simpler!

Without any use of either glue or complicated tools you can fit the boards tightly together just by using a hammer and the tapping block. You'll get a perfect result without straining yourself.

**Combiloc**  
The two locking systems are both extremely user-friendly and easily dismantled when wished for. Combiloc differs from Ultraloc since you don't even need a hammer! The boards are simply angled into each other and locked effectively.

## We give your floor the best protection

All the Bravo/Salsa products are treated with one of Tarkett's extremely strong and wear-resistant lacquers: Proteco Lacquer or Proteco Natura. Proteco Lacquer ensures that your floor will be great-looking for years.

It is double hardened and one of the strongest lacquers on the market. Proteco Natura has all the great qualities of Proteco Lacquer. The difference is that with Proteco Natura you get the same soft and natural look as that of an oiled floor.
